

TEP25

Apply now

The Teaching Excellence Program 2025 provides a year-long professional learning for teachers from Victorian government, Catholic and independent schools.

Teachers will have access to the latest evidence-informed research and apply this to students' learning needs through a practitioner inquiry approach.

The program is designed for highly skilled teachers with a minimum of 3 years' teaching experience. Teachers analyse their teaching and content knowledge in their chosen discipline, and across the key discipline areas.

Supported by Master Teachers in Residence, teachers engage with expert educators in a diverse range of learning events and activities, including Discipline Days, Teaching Excellence Learning Communities days, conferences and practitioner inquiry.

After graduating, teachers gain alumni status from the Academy and are eligible to apply for a Teaching Innovation Fellowship to take their learning even further.
